Docket No. RSW920030128US1

ABSTRACT OF THE DISCLOSURE

SELF-CONTAINED AND AUTOMATED eLIBRARY PROFILING SYSTEM

5   A system and method for reporting a user's behavior and patterns when engaged in use of an electronic consumable. In a preferred embodiment, an electronic consumable such as an electronic book or library includes detectors for collecting biological information from a

10   user. This information is analyzed to identify the user's interests in and reactions to the electronic consumable.
